August 4th 11th 18th 25th &
September 1st

GRADE 1 & 2 Spectacular Science

ME1

Do you love creating experiments? Always wanted to be a scientist?

Join us as we investigate how and why things work through fun experiments. Making slime, bubbles, dancing flies, invisible ink and honeycomb are just a few of the fun and exciting experiments we'll be working on!

If this sounds like lots of fun, come and join us and make some new friends along the way!
