

**PEARCEDALE PRIMARY SCHOOL****Baxter Tooradin Road, Pearcedale****Mel Ref: 140 H6****TUESDAY: 4:15 – 5:30****August 1<sup>st</sup>, 8<sup>th</sup>, 15<sup>th</sup>, 22<sup>nd</sup> & 29<sup>th</sup>****PREP****Hands on Maths****P1****Are you a Mathematician who loves to experience Maths in a hands on way?**

If so, come along to HANDS ON MATHS! We will be making pizzas, playing card games, racing as different types of animals and measuring our smelly shoes! These activities have been adored by many preps and will be sure to engage and extend your child in the area of Maths

**GRADE P-2****Maths Challenges****P2****Are you a Maths Whizz? Do you love sports? Do you love to play games? Well, this is the session for you!!**

Touch up those maths skills along with your basketballs skills, or maybe its bowling you're a champ at! It doesn't matter you'll get to try them all. Maths Challenges is a fast paced mental math competition that not only requires you to concentrate on speed and accuracy in your mental maths but also in PE as well. Get the sum right, great but you still need to score on the mini basket to get points for your team. And best of all, its age appropriate to all levels so sign up to the right challenge for your grade level and start practicing because once you start Maths Challenges, you won't be able to stop.

**GRADE P-2****Animation Writing****P3****Do you have a good imagination and love to write? Do you watch cartoons and wish you could write the next episode? Well this is your chance!**

In these sessions you will laugh and scream at a range of animations as you use your imagination and fantastic writing skills to create the story behind the cartoon. These sessions are designed for prep to year two and will help them refine their writing and have a blast at the same time.

**GRADE 3-4****V.C.O.P Super Hero's Needed****P4****Are you a brilliant writer? Or someone who is wanting to take the next step with your writing skills? Well, we need you!**

We are after people we can train to be our VCOP Superheros. You will be taught the skills of ALL the VCOP Superheros so you can help us trap the reader. You will learn the art of Kung Fu Punctuation to help you battle your reader, incredible openers and vocabulary to blow your reader away and power connectives to link all your ideas together proving a net to catch the reader as they faint from your fabulous stories. These sessions are fast, fun and orally based to help bring even the quietest writer out of there shell. Don't miss out, we guarantee we'll have you chanting about the VCOP when you leave!

**GRADE 3-4****Maths Challenges****P5****Are you a Maths Whizz? Do you love sports? Do you love to play games? Well, this is the session for you!!**

Touch up those maths skills along with your basketballs skills, or maybe its bowling you're a champ at! It doesn't matter you'll get to try them all. Maths Challenges is a fast paced mental math competition that not only requires you to concentrate on speed and accuracy in your mental maths but also in PE as well. Get the sum right, great but you still need to score on the mini basket to get points for your team. And best of all, its age appropriate to all levels so sign up to the right challenge for your grade level and start practicing because once you start Maths Challenges, you won't be able to stop.

**GRADE 4-6****Code Breaker****P6****Ever wanted to talk to share amazing secrets with your friends but your annoying little brother or sister is listening at the door or Mum always reads your mail. Well we have the answer for you!!**

Well there are a lot of ways to communicate with people secretly by using codes. In these sessions you will look at codes from around the world to try and help you keep your secrets a secret and to have some amazing fun at the same time. But before you learn the code, you have to learn to break the code. Find the secret message from each session and learn to write your own. Codes could include Morse Code, Invisible Ink, Auslan, Braille and MORE!!

No more pesky brothers or sisters listening or reading your secrets once you can code break with your friends. **Don't miss out.**

**GRADE 4-6****Unreal Footy****P7****Are you an AFL fan? Consider yourself a maths whizz?**

Join us in the ICT lab to investigate the maths in sport. Create your own "dream team" and follow the statistics and performances of your players. Using mathematical formulas calculate scores, ladders and predictions. Each week will mean investigating a new area of mathematics using football. Unreal footy requires you to calculate, predict, represent data and problem solve.

**GRADE 5-6****Writer's Workshop****P8****Are you a budding writer? Are you looking for ways to enhance your writing skills and make your stories better? Then these five intensive writing sessions are for you!**

You will have the opportunity to experience and participate in a variety of hands on writing activities and exercises. When you leave, you will take with you some useful tools and strategies that will help you continue to write creative and imaginative stories. Aimed at students in Grade 5 or 6 who are looking to extend their creative writing skills.
