

RYE PRIMARY SCHOOL

Address: Lyons St, Rye

Mel Ref: 168 F6

TUESDAYS 4:15-5:30pm

August 2nd, 9th, 16th, 23rd & 30th

PREP

See For Yourself Science

R1

Are you a budding scientist? Do you enjoy experimenting and investigating? Then this program is for you. You will have the opportunity to participate in a variety of experiments e.g. bouncing eggs, Hubble Bubble, balloon lungs, magnets etc. Students will be encouraged to research, predict and make simple recordings of their experiments.

GRADE 3 & 4 Parlez Vous Francais?

R2

Come on an enriching and educational tour and discover the culture from the European country France. Over the 5 week unearthing period discover the different cooking and taste sensations this famous country has to offer. Get out your passports as we explore the famous landmarks and learn to converse at a basic level. We will also discover how school differs in France to here in Australia. A small booklet will be provided to students to work through and take home as a souvenir of their accrued knowledge. This course is aimed towards students who have never learnt French before and who are eager to gain knowledge about a different way of life.

GRADE 5 & 6 You wouldn't want to be an Egyptian Mummy!

R3

Be prepared for a lengthy journey- cast yourself back over three thousand years to a land far away. Explore the lives of the Ancient Egyptians through Art and Science. Learn the ancient art of mummification and follow the embarking process of preparing you for the afterlife. Create a wooden mummy complete with wooden name tag, a canopic jar (to put your organs in) and a sarcophagus for your final journey, complete with hieroglyphs and artwork. Use papyrus to paint your life story and create jewellery to take into the afterlife. Learn about the god that will judge and protect you on your journey. And finally recreate a page from the Book of the Dead, full of spells to help you on your way.
